

Muhammad Naveed Aslam

Chief Consultant – Oil & Gas Operations, Asset Integrity & Production Management

Muhammad Naveed Aslam is a seasoned Oil & Gas professional with over 34 years of extensive experience in upstream exploration, production facilities operation, plant maintenance, asset integrity, process safety and field management with leading multinational and national energy companies in Pakistan.

He has held senior leadership positions including Regional Manager Sindh at Mari Energies, Field Manager at OMV and UEP, Group Head Maintenance at PARCO, Maintenance Superintendent at BHP Billiton and Manager Operations & Maintenance at Asia Petroleum Limited. Currently, he also served as Chief Operating Officer at Reliable Industrial Solutions Engineering (RISE).

Throughout his career, Mr Naveed has managed large-scale gas processing and oil production facilities, including the Sawan, Kadanwari, Miano, Zamzama and Badin fields, overseeing operations with capacities exceeding 450 MMSCFD gas processing and major crude handling infrastructure. His expertise spans production optimization, plant turnaround management, maintenance management systems, technical integrity, process safety, and cost optimization initiatives.

He has played a pivotal role in brownfield modifications, plant reliability improvement, production strategy development, CAPEX/OPEX management, asset performance enhancement, Operations Readiness and Assurance. He has also led incident management teams, plant turnarounds, and large multidisciplinary operational teams, ensuring compliance with international HSE standards and national regulatory requirements.

Mr. Naveed is widely recognized for his leadership in operational excellence, sustainable growth and stakeholder engagement in complex field environments, while developing competency frameworks and training programs for technical manpower. He holds a B.E. in Mechanical Engineering from the University of Engineering & Technology (UET), Lahore.
